

UNIFI

THE MAKERS OF REPREVE®

GLOBAL PRODUCER OF HIGH-QUALITY RECYCLED MATERIALS

Post-consumer plastic bottles, pre-consumer industrial waste,
or a hybrid blend of both.

PET BALES

THE MAKERS OF REPVE®

Baled recycled PET containers are converted into clean flake in our state-of-the-art **REPVE®** Bottle Processing Center located in Reidsville, North Carolina.

Our plant has the ability to process an excess of 130 mm pounds of baled PET containers annually. From our process, UNIFI produces over 75 mm pounds of clean rPET flake for both internal consumption and external sales. UNIFI actively sources full truckload quantities of baled recycled PET containers. Acceptable material types include curbside, deposit and post-industrial bales.
