

Sorbtek®

MOISTURE MANAGEMENT

SORBTEK® moisture management Catch-Move-Release™ technology helps move moisture away from skin and releases it for quick evaporation. The same powerful technology that keeps the yarn cool also protects against soiling such as sweat and grass.

Sorbtek®

WICKING

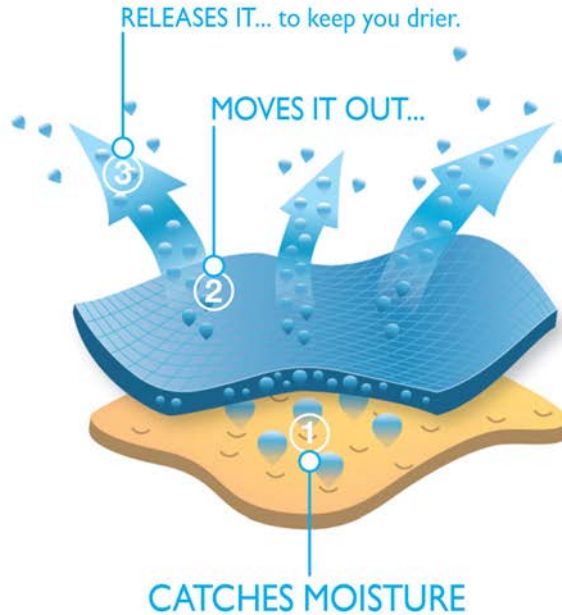

Sorbtek®

POTENTIAL BENEFITS:

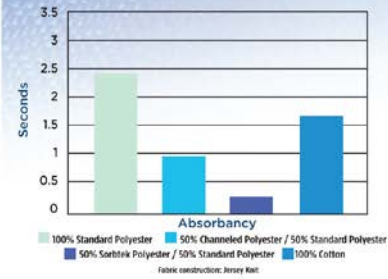

- **Catch-Move-Release™** superior moisture management system
- Breathable and moisture-wicking for cool, dry comfort
- Improves fabric hand
- Inherent soil release properties
- Permanent, tested up to 50 launderings
- Targeted performance, use it only where it is needed
- Enhances antimicrobial performance (in fabrics where an antimicrobial is present)
- Combines well with other performance technologies

AVAILABLE:

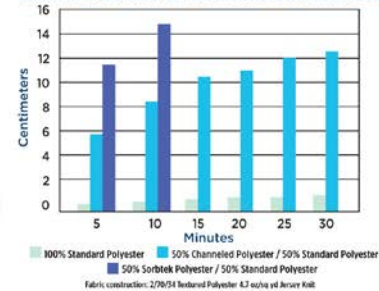

- **SORBTEK® 365™** for enhanced moisture-wicking
- Available in a full range of **REPREVE®** yarns and multiple fiber types:
 - polyester filament
 - staple and spun
 - limited nylon
 - solution or packaged dyed
- Available globally
